

Placing Your Logo

Your logo can be placed either:

- Upper left
- Centered
- Lower left

Leave a space of 0.25" or 20 pixels (px) around the logo and tagline. Don't place text, graphics or images in this clear space.

Placing the logo mark over an image

As a general rule, avoid placing your logo mark over an image. If a project dictates this placement, keep the logo mark strong and highly visible.
