

Iowa Child Care Coalition

The Iowa Child Care Coalition (ICCC) was formed to more strategically address Iowa's child care crisis. The Coalition, through nonpartisan legislative recommendations, seeks to increase access, affordability, and quality of child care while increasing the stability of the child care workforce across Iowa.

RECOMMENDATIONS FROM ICCC:

- Increase child care provider reimbursement rates to the 75th percentile of the 2020 Market Rate Survey (MRS) for all providers participating in the QRS program.
- Provide funding for public private partnerships with the purpose of stabilizing and growing the child care industry.
- Increase the Child Care Assistance entrance income limits to 185% incrementally at 5% annually.
- Increase funding to adequately support sustained funding for WAGE\$@ statewide.
