Fee includes two lite breakfasts, one lunch, book *Young Investigators: The Project Approach in the Early Years*. 3rd edition and display materials for final project.

SERIES DESCRIPTION

Judy Harris Helm, author, of *Young Investigators: The Project Approach in the Early Years*, will begin our series in person Saturday, February 6th, 2021! The Project Approach promotes teachers' in-depth thinking while engaging the hearts and minds of young children. Projects build on children's natural curiosity, enabling them to interact, question, connect, problem-solve, communicate and reflect. It is authentic learning wherein children are active participants in studying topics with purpose and flexibility; all while learning needs are met.

Learn how to facilitate project learning through guiding a project in your own classroom. After the full day training, three ZOOM evenings are spaced over the semester to allow teachers to implement and share experiences of Project Approach. The final session will be held in person, honoring the Week of the Young Child and celebrating successful implementation of Project Approach experiences.
